Ipv6_prefix

When we click on one of the tables, for e.g Nccm_parameters shown below, we can view the records in that table.

<< Back to tables

Nccm_parameters

| Daemon_id | Queue_size | Max_retries | Max_age | Polling_cycle |
|------------|------------|-------------|---------|---------------|
| yceseven-1 | 100 | 5 | 1 | 1 |

New

Delete

Search

Persistent Search

As we type away into the search box on top right, the tables matching the text are displayed. For e.g if we type dhc, the tables matching dhc are shown

NMS tables
