

NetYCE 8.2.0 Active_build

Release notes

Date: 2023-02-15

NOTICE

This set of release notes reflects the work in progress. Each of these items will become available with the next release and will be made available in the [Download Patchfiles](#) article.

Fix

Cleaning up deleted compliance records

When you delete a node directly with a database query, the nccmd daemon would detect this and clean up any records in backups selection. It would not clean up compliance records. This is now fixed.
