

# Deprecation Notices

## 6-3-23: Removal of the XCHRest API

We have removed the XCHRest API in favour of a docker-based REST-endpoint API. It will be released in the future. In the mean time, please use the Exchange API.

## 5-12-22: Job logs collapsible details

When you click on a line of the job logs, it no longer uncollapses a preview of the job logs. Instead, it just opens the job log files popup.

## 22-11-22: Removal of obsolete scenario calls

We removed a number of old scenario calls from the tasker. Support for the following calls has ended:

- '**import\_cfg**' ⇒ please use cmd\_exec
- '**basic\_import**' ⇒ please use cmd\_exec\_basic
- '**gen\_startup**' ⇒ please use config\_create
- '**write\_startup**' ⇒ please use config\_startup
- '**save\_config**' ⇒ please use config\_save
- '**diff\_config**' ⇒ please use config\_diff
- '**reload**' ⇒ please use reboot\_node
- '**restore**' ⇒ please use config\_restore
- '**logaction**' ⇒ please use log\_action
